Relocation of Signals - Change in CATV VCN

We need to modify some CATV VCNs, highlighted in yellow below, which will impact customers using commercial receivers. The reason for this change is in order to do a dual feed on the same VCT (Virtual Channel Table) we must use an alternate channel number within that VCT.

The signals will be located only in their new locations at 10:00 AM EST on the final day of the dual feeds.

Technical Coordinates: Dual Feed May 25th ending July 19th, 2021
